Provincial Aid For Technical Education

The Hon. J. R. Boyle, Minister of
Education, has announced that the
order-in-council providing for special
provincial aid for technical education
was passed on Monday, November 2.
The details regarding the schedule of
grants and regulations are now being
forwarded to the school boards and
teachers throughout the province, and
will appear in these columns next week.
The plan adopted provides for special
grants (a) to school boards, to assist
them in providing the necessary equip-
ment and in maintaining the classes, and
(b) to the teachers to encourage them to
qualify for the special instruction and
give satisfactory service therein after
having qualified.

In rural and village districts where as-
sistance is given for instruction in man-
ual training and household science,
special emphasis is placed on instruction
in agriculture and gardening. In town
districts the encouragement of instruction
in household science and manual training
receives special attention, while that
in agriculture and its related sciences is
also provided for. In the cities the plan
provides for the greatest proportionate
aid being given toward the development
of night class instruction and pre-voca-
tional, vocational and technical day
classes. Substantial aid is given also for
the encouragement of night class in-
struction in the smaller communities,
particularly in the industrial and mining
centres.

In all cases the local organization, the
accommodation and equipment provided,
the courses of instruction and the in-
structors must be approved by the De-
partment of Education before the grants
may be paid. In order that the quality
of instruction may be maintained at a
high standard, the teachers of the vari-
ous special subjects and courses will have
to meet the requirements of the De-
partment of Education before being recog-
nized for grant purposes. For the more
advanced work qualified specialists will
receive due recognition upon application
to the Department of Education. For
the elementary phases of the work in the
various subjects, the teachers, not al-
ready qualified, may secure the necessary
training at the Summer School for Teach-
ers.

To insure that only the highest and
most economical use of all accommoda-
tion, equipment and specialized service
available, the courses and classes affect-
ed by these grants are to form an in-
tegral part of the school system, and the
school board and under the general
direction and supervision of the superin-
tendent of schools in those school dis-
tricts where such an official is employed
by the board and in all other cases un-
der the direction of a principal to be
designated as the supervising principal
of the schools of the district.

In order that the night class work for
this winter may receive full benefit in
the way of provincial aid, the schedule
of grants in so far as it pertains to night
class instruction is to be deemed to have
been in force on and after October 1st,
1914. The remainder of the schedule
became operative on and after January
1st, 1915.

November Rod and Gun

Bonnycastle Dale is the leading
contributor to the November issue of
Rod and Gun issued by W. J. Taylor,
Limited, Woodstock, Ont., writing on
the subject "Trapping in Ontario
1913-1914." In "Wintering in the
Winter Woods" W. Dustin White
describes vividly the joys of the
winter canoeing trip. "Beet trapping
and pick carrying in British
Columbia" tells of a hunter who
trapped a husky bear weighing some
one hundred and sixty pounds and
then carried him on his back for a
distance of ten miles over an uneven
woods trail. "Rif and Bee and Me"
is a well-written account of a canoe
trip in the north-west wilderness. The
remainder of the magazine is replete
with interesting articles, and the
various departments are well main-
tained.

United States Soft Coal Not Being Imported

"Not a pound of American soft coal is
coming into Alberta, so far as we know."
This statement was made this morning
by Manager Hied, of the Chinook colli-
eries, in answer to a query regarding the
complaint made by one of the delegates
of the miners' union to the conference of
government and civic officials at Calgary
last week to discuss the question of the
unemployed in the province.

It was charged that American soft coal
was being imported and that if such was
the case, the matter should be investi-
gated and if found correct, stopped, if pos-
sible, so that coal from the mines in the
province would not have to compete with
western coal. This would give the mines
more orders to work on, and so help the
question of unemployment. The opera-
tions themselves say that no American
soft coal is being imported and they
know of no anthracite importations
either. The local market extends as far
east as Brandon, and some local coal is
going as far east as Winnipeg. The re-
duction in freight rates has helped
very materially, say the operators, to ex-
tend their market, and no competition is
met until this Brandon line is reached.
Some soft coal is known to have come as
far west as Swift Current, but it is stated
that the railroads are using all the soft
coal imported from the Pennsylvania
fields. Their reason for doing this is
said to be the old excuse that they can
utilize the empties by shipping other pro-
ducts back. They can purchase the
Pennsylvania coal for slightly less than
they pay for Alberta coal, and it also has
the advantage of a lake and rail route
over an all-rail route. Alberta coal
reaches many points in the United States,
and the lack of orders generally is said to
be due to the mild weather, not to com-
petition with the Yankee product.—Leth-
bridge Herald.

The Story of "It's A Long, Long Way to Tipperary"

"It's A Long, Long Way to Tip-
perary" was written by Jack Judge,
a London music hall artist, of Irish
descent. He composed both the
words and music over two years ago,
but could not find a publisher al-
though he visited home after home
in London. Finally he persuaded
one publisher, just a little over a
year ago, to try it out, and at once it
was a decided hit. After that Judge's
fortune was made and the sound of
the marching tune can now be heard
everywhere throughout the British
Empire, and in many countries where
they are friendly to the Allies.

The Ten Commandments

The following ten commandments are
offered by one philosopher, for the guid-
ance of catalogue house patrons:

1. You shall sell your farm produce for
cash, whenever you can, but not to us.
We do not buy from you.

2. You shall believe our statements and
buy all you need from us because we
want to be good to you although we are
not acquainted with you.

3. You shall send the money in ad-
vance to give us a chance to get the
goods from the factory with your money.
Meanwhile you will have to wait patient-
ly a few weeks as that is our business
method.

4. You shall buy church bells and
church fixtures from us and forward the
money in advance for this is our busi-
ness method.

5. You shall collect from the business
men of your town as much money as
you can for the benefit of your churches
as it is against our rules to donate for
building country churches.

6. You shall buy your tools from us
and be your own mechanic in order to
drive the mechanics from your vicinity
for we wish it so.

7. You shall induce your neighbor to
buy everything from us as we have room
for more money—the less money there is
in your community the sooner we can
put your local merchants out of business
and charge you what we please.

8. You shall look often at the beautiful
pictures in our catalogue, your wishes
will increase and so you will send in a
big order. Send the money, otherwise you
might have some money left to buy some
necessary goods from your local mer-
chant.

9. You shall have the merchants who
regularly order goods you buy from us be-
lieve the bills so that you can send the money
for their labor to us for new goods,
otherwise they will not notice our influ-
ence.

10. You shall in case of sickness or
need apply to your local dealer for aid
and credit as we don't know you nor do
we care to.—Hardware & Metal Journal.

Ground Broken for C.P. Pavillion, San Francisco

San Francisco, Calif., Nov. 7.—
Ground for the Canadian Pacific
railway pavillion at the Panama Ex-
position grounds was formally broken
yesterday in the presence of Ex-
position officials and representatives
of American railroads and traffic in-
terests, and department of natural
resources, Canadian Pacific Railway.
Mrs. Jackson, wife of the General
Agent of the Canadian Pacific Rail-
way Passenger Department at San
Francisco, drove the first spike and
the ceremony included the raising of
Canadian flags over the centre of the
site and at the four corners.

Blythe Henderson, Chief of Trans-
portation, Panama Exposition, acted
as chairman and formally presented
Francis Swales, architect represent-
ing the Canadian Pacific, with the
deed of space, extending hearty con-
gratulations and expressing the
satisfaction of the administration at
the Canadian company's decision to
participate in the Exposition. Gen-
eral Agent Jackson responded hap-
pily on behalf of the company thank-
ing the administration for courtesies
received and expressing the good will
of the Canadian Pacific. By rushing
work at all possible speed, he hoped
the building would be ready for
occupation prior to the official open-
ing of the Exposition.

Cowley Happenings

J. G. Drewry is reported ill.
Mr. Comfort, of the North Fork,
unloaded a car of apples from Ontario
last week.

Len Smyth had to have his hand
lanced in three places last week be-
cause of blood poisoning.

The trouble between the two com-
batants last week has been satisfac-
torily settled out of court.

W. C. Robinson, accompanied by
Mr. Dent, of Beaver Mines, paid a
visit to Macleod this week.

C. H. Powell was bitten on the
leg by a horse while unloading milk
at the station platform on Saturday.

Mrs. M. Cleland and family wish
to extend their thanks to those who
were so kind to them in their recent
bereavement.

Bernice Bird is spending a few
days with old friends at the North
Fork. James, we believe, is wash-
ing dishes. Go to it, Jim!

Dr. Donald has taken up quarters
in the little building back of the
Methodist church, and will be found
there or at Melvor's drug store.

The hunters have returned, report-
ing success, having got several deer,
or dars, and a jack-rabbit. One
good thing about it is that while they
are eating venison they won't need
sugar at 11 cents per pound.

Young men should not leave their
horses untied while they are visiting
their fine looking young ladies. Al-
ways make sure of the horses, then
you won't have to run so hard to
catch them. It's dangerous, Petry!

The boys at the front are wild after
papers. What are we going to do
about it? Could we not send a week's
collection to them after we have
perused them ourselves? Put them
into a wrapper and address them to
Salisbury Plains.

The very sudden death occurred
last week, at his father's house, of
T. Simister, son of W. T. Simister, of
North Fork. The remains were in-
terred in the North Fork burying
ground on Thursday. Sympathy is
extended to the bereaved ones.

Mrs. M. Robinson rendered a solo
at the Sunday evening service, which
was much appreciated after the long
absence of extra music, and it is to
be hoped that a choir will soon be
organized. If those who are inter-
ested in music would just come to
the front and lend assistance there
would be no difficulty, as there is an
abundance of musical and vocal talent
in Cowley. Also, more workers
for the Sunday school are wanted.

J. M. Easterbrook met with some
slight injuries in a runaway which
occurred while he was driving home
from Bellevue on Monday last. He
was thrown from the rig and badly
shaken up. We are glad to know
that no bones were broken, although
he had to be taken home from Lund-
brook via Cowley, where the doctor
was summoned to dress the wounds.
He will soon be around again.

Frank Happenings

On Tuesday evening a fast and furious
game of basket-ball was played by
Frank's "recruits" and Mr. Young's
"lambas." Right after the start, Mr.
Hart, of the lambas, landed a left hook
to Shorty's eye, partly disabling him for
the rest of the game. Paton also fell
down and stepped on his own sled-bag.
The star player of the lambas also met
with a slight accident. Paton again
failed to find the net from the first six
penalties, arousing the wrath of the re-
cruits' rosters. Triastum was brought
forward and was successful in several
penalties. The game continued fast with
lots of comments regarding the decisions
of the referee. At the end of the first
twenty minutes the game stood 6-10 in
favor of the lambas. Upon resuming,
the recruits took up the aggressive and
soon were in the lead, Paton being sub-
ject to severe criticism from the recruits'
supporters. At the end of the second
period both teams were even—14-14. An
extra ten minutes was played, and Parker
taking the centre position succeeded in
notching two miltifed goals equalling
two points each. Thus the recruits won
out by 16-16. Maradi, as per usual, was
the recruits' stronghold. Parker and
Triastum again showed up well, but Ken-
nedy (substitute for Patterson) and Pa-
ton were considerably off color. Jolly
and Hart were the pick of the lambas.

Frank Eosely, of Bellevue, was a
visitor on Saturday last here.

Alf. Triastum was in Bellevue on Mon-
day renewing acquaintances. His friends
hardly knew him since he started using
Casseline for his complexion.

We notice in the first few lines of
locals in last week's issue of this paper
where Blairmore is again credited with
being the "metropolis of Southern Al-
berta." Where does Frank come in?

T. Patterson and T. Longworth were
visiting in Bellevue on Monday.

Mrs. W. H. Hilton and son went out
to Fernie on Wednesday to spend a few
days with friends.

Several ladies and gents of dancing
taste journeyed to Bellevue on Monday
evening to take part in the masquerade,
and their disguise was so complete that
even their nearest friends did not know
them.

Miss Emma Kidd, formerly of the
Sanatorium, was successful in landing a
prize at the Bellevue masquerade ball
on Monday night.

The recruits regret not being able to
meet the Frank "lambas" team on Tuesday
night to reverse their previous score, the
excuse being that one was sick, another
was injured, and the genuine excuse of
Mr. Young, who had to act as referee.
Mr. Young's "lambas" were substituted
and gave the recruits a far harder game
than the first team did last week.

T. Marsh, on behalf of his recruits,
heralded a challenge to the Frank "lam-
bas" for a basketball game next week on
the hillcrest basketball ground. The recruits also challenge
the team that opposed them in their first
game, the losers to donate 50 cents each
to the funds of the gymnasium.

A very interesting event took place in
the Hillcrest Masonic Lodge on Thurs-
day night of last week, when the chap-
ter of the Order of the Eastern Star was
presented with its charter by the grand
matron, Mrs. Kenny, and grand patron,
Mrs. Nichol, of Calgary, assisted by
Sister Cruickshank, of Hillcrest.

Marshall—David S. Howe, of Frank.
Sentinel—John Wallace, of Hillcrest.
After the installation ceremony the
ladies provided refreshments for these
present and a pleasant time was spent.

Mrs. A. J. McKinnon was a Coleman
visitor on Wednesday.

Eugene Schurrer, an old-timer here,
and now manager for Mutz on the Moose
Jaw end, was a business visitor here on
Thursday.

Rev. Mr. Hart, of Hillcrest, was down
on Monday evening and took part in the
basket-ball game with the "lambas"
against Marsh's recruits.

Hughie Robinson, engineer on the
yard engine here, for Lethbridge on
Monday, with intention of collecting for
the front, but returned on Wednesday—
nothing doing, for some reason or other.

Dr. J. C. Miller, director of technical
education, was in town on Thursday. It
will be remembered that Dr. Miller visit-
ed Frank and neighboring towns last
year regarding the organization of night
classes. The matter is now being taken
up with the local school board and it is
likely four classes will be organized—for

mathematics, etc., from 14 to 18 years,
or over 18 years; foreign languages, three
preparatory lessons such as arithmetic,
mensuration, use of formulae trigonome-
try, etc.; for those intending going in
for engineers or firebrakes, and fourthly
firebrakes, pitheases and mine managers.
The cost to those taking advantage of
these courses will be small. A meeting
will be held on Monday evening, in the
Frank school when the matter will be
thoroughly considered, and those who
wish to enter the classes will be allowed
to enroll. We would strongly advise
those who wish to be thoroughly con-
venient with the English language or to take
up other subjects to be present, so that
arrangements may be made to start the
following Monday, so come along and
get the good work started.

Anthony Wardman, of Burnis, was
visiting Frank and the editor's metropolis
on Thursday.

A wedding was solemnized at the home
of Mr. and Mrs. George Montalbetti on
Thursday evening, the contracting par-
ties being Miss Edna Moorhouse and
Thomas Bradshaw, both of Hillcrest.
Mrs. Montalbetti and Isadore Montal-
betti acting as best lady and gentleman.
Rev. W. T. Young officiated.

D. Dunlop has nearly completed the
addition to his house. Now watch out,
Dunlop! After twenty-five bonus ex-
tra on your taxes next year! Double

The work commenced last fall when the land was ploughed, disked and trenched. Statistics taken during the winter of 1907-8 were very encouraging; they indicated that conditions were not nearly so adverse to agriculture as had been popularly supposed. In spring, trial plots were prepared and seeded to various varieties of corn, wheat, barley, grasses and legumes. Seed was secured from the Government, Dr. L. A. Friesdorn, and

ville, Kentucky over an ordinance recently passed by the city council bidding negroes to invade the residential portions of Louisville owned by the whites. The law not only prohibits the blacks from living with the whites, but also forbids them to move into the negro quarters. In fact, a belated attempt to segregate the negroes in this southern city where the blacks number one-fourth of the population. In

years the negroes of Louisville progressed very markedly both in education and in wealth, and there was a tendency on the part of the wealthier among them to buy property in the better portions of the city. This is resented by the white people whose property as consequence is depreciated in value. The negroes advised that the ordinance is constitutional. Protest meetings have been held and money is being raised for the purpose of fighting the matter, and a test case will be brought. It is feared that this

The French Marseillaise

Ye sons of France, awake to glory! Hark, hark! what myrade did you rise! Your children, wives and grand-children! Behold their tears and hear their cries! Shall hateful tyrants mischief breeding, With hireling hounds, a ruffian band, Affright and desolate the land, While peace and liberty lie bleeding.

To arms, to arms, ye brave! The avenging sword unheath! March, march out, each heart resolved on victory or death.

Oh liberty! can man resign the, Once having felt thy generous flame? Can dungeons, bolts and bars confine thee, Or whips thy noble spirit tame? To lead the world has wept bewailing That falsehood's dagger tyrants wield—But freedom is our sword and shield And all their arts are unavailing.

To arms, etc.

War! For What?

Twelve million men to be marshalled And murdered and mangled and maimed; Twelve million men by the stroke of the pen To be slaughtered—and no one is shamed.

Mountains of wealth to be wasted, Oceans of tears to be shed, Valleys of light to be turned into night, Rivers of blood to run red.

Thousands of wives to be widowed, Millions of mothers to mourn, Thousands in sorrow to wait the morrow, Millions of hearts to be torn.

Thousands of fathers to perish, Millions of children to moan, Ages of time to prepare for a crime That none can never atone.

Thousands of homes to be shattered, Millions of prayers to be vain; Thousands of ways to be glory that pays In poverty, pain and pain.

Twelve million men in God's image Sentenced to shoot and be shot, Kill and be killed, as a ruler has willed, For what? For what? For what? For what?
